

# Star Consignor Requirements

- If you have **3** items or less pulled during inspection or pulled **during** the sale, your consignor # will be recorded and you will get to **SKIP** inspection for the next sale.
- During the sale if we come across an unacceptable item (season, stain, tear, etc.) the item number and consignor # will be scanned into the system and the item(s) will count **against** your **3** pulled items.
- In order to **maintain** being a Star Consignor, you must have **no more than 3** items pulled from the sales floor, for any reason, during each sale.

WE are So EXCITED to help **speed** up drop off, as we continue our goal to provide our shoppers with quality items! ♥
